---

# FINE FINISH

---

## DESCRIPTION

Bostik Fine Finish is a ready to use surface finish suitable for covering slight imperfections in timber, plaster, mortar, concrete and primed metal, providing a hard and smooth finish. It has been specially designed for use as a surface finish under gloss paint.

---

## PREPARATION

Surfaces should be clean and dry with no loose or powdery material or paint. If applying over gloss paint, use Bostik Degloss to improve adhesion.

---

## PRECAUTION

Not suitable for outdoor use, or filling large holes – use Bostik Heavy Filler instead. Use Bostik Fill-A-Gap sealant where movement occurs

---

## APPLICATION

- Knead tube before use to ensure an even consistency.
  - Squeeze a small amount of filler onto a flexible filling blade.
  - Apply in thin coats (1-2mm) to avoid cracking, pressing firmly into the area being filled. Remove any excess filler.
  - Allow each layer to dry before applying next layer.
  - Dries in 2-3 hours in thin applications depending on atmospheric conditions.
  - When dry, use 180-240 grit sandpaper if a smoother surface is required.
  - It is not necessary to prime over Bostik Fine Finish before painting.
  - Bostik Fine Finish can be painted with water or oil based paints.
- 

## PROPERTIES

Type: Water-based paste  
Colour: White  
Shelf life: 12 months
