

**1 IDENTIFICATION OF THE PRODUCT AND OF THE SUPPLIER**

Product Name FINE FINISH

Hazard Statement Classified as Not Hazardous according to HSNO in New Zealand.
Not classified as a Dangerous Good according to NZS5433:1999
Transport of Dangerous Goods on Land.

Recommended Use An interior plaster and wood filler applied with a flexible filling knife.

Supplier Bostik New Zealand Limited

Street Address 19 Eastern Hutt Road, Wingate, Lower Hutt, New Zealand

Telephone ++64 4 567 5119

Facsimile ++64 4 567 5412

Website www.bostik.co.nz

Emergency Telephone Number National Poisons Centre
0800 POISON or 0800 764 766

Emergency Response In New Zealand 0800 CHEMCALL or 0800 243 622
In Australia 1800 127 406
Globally ++64 3 353 0199

Date of Preparation 01 June 2006

2 HAZARDS IDENTIFICATION

Hazard Statement Not hazardous

Precautions Not applicable

HSNO Classifications Not applicable

3 COMPOSITION / INFORMATION ON INGREDIENTS

| Chemical Name | CAS | Proportion |
|---------------------------|------------|-------------------|
| Non-hazardous ingredients | - | 100% |

4 FIRST AID MEASURES

If poisoning occurs, contact the National Poison Centre (New Zealand 0800 POISON or 0800 764 766).

First Aid

| | |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation | Not expected to cause any irritation. However, if breathing becomes difficult, remove person to fresh air. Get medical advice if required. |
| Skin Contact | Remove contaminated clothing and wash skin with warm soapy water. Do not scrub. If swelling, redness, blistering or irritation occurs, get medical assistance. |
| Eye Contact | Hold open and flood with water for at least 15 minutes. Get medical advice. |
| Ingestion | Rinse mouth with water. Do not induce vomiting, give a glass of water to dilute and get medical advice immediately. Never give anything by the mouth to an unconscious patient. If vomiting occurs give further water. |
| Advice to Physician | Treat symptomatically. |

5 FIRE FIGHTING MEASURES

| | |
|---------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Type of Hazard | Non-flammable material. |
| HAZCHEM Code | Not applicable |
| Fire Hazard Properties | Not applicable |
| Extinguishing Media | Not flammable, however if material is involved in a fire use water fog (or if unavailable a fine water spray), foam, or dry agent (carbon dioxide, dry chemical powder). |
| Unsuitable Extinguishing Media | Not applicable |
| Precautions for Firefighters | Not applicable |
| Additional Advice | Not applicable |

6 ACCIDENTAL RELEASE MEASURES

Small Spills Wear protective equipment to prevent skin and eye contamination. Wipe up with

(< 20 litre) absorbent (clean rag or paper towels). Collect and seal in properly labelled containers or drums for disposal.

Large Spills (> 20 litre) Slippery when spilt. Avoid accidents and clean up immediately. Wear protective equipment to prevent skin and eye contamination. Contain spill to prevent run off into drains and waterways. Use absorbent (rags, soil, sand, or other inert material). Collect and seal in properly labelled containers or drums for disposal.

7 HANDLING AND STORAGE

Handling Wear the appropriate personal protection equipment as specified in this SDS to prevent eye and skin contact.

Storage Store in a cool, dry, well ventilated place and out of direct sunlight. Store away from any incompatible materials as defined in Section 10 of this SDS. Keep containers closed when not in use. Check regularly for leaks.

8 EXPOSURE CONTROLS / PERSONAL PROTECTION

Workplace Exposure Guidelines

| Substance | WES-TWA | WES-STEL |
|----------------|---------|----------|
| Not applicable | - | - |

Engineering Controls Natural ventilation should be adequate under normal conditions of use.

Personal Protection Equipment Avoid repeated and prolonged skin contact. Wear safety glasses to minimise the risk of splashes getting into the eyes. Wear plastic or rubber gloves if there is a risk of prolonged or repeated skin contact.

9 PHYSICAL AND CHEMICAL PROPERTIES

Appearance Thick off-white paste

Odour Mild

Specific Gravity 1.9

pH 8 – 9

Solubility in Water High

High = >60% Medium = 10% - 60% Low = 1% - 10% Very Low = < 1%

**10 STABILITY AND REACTIVITY**

| | |
|-----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Stability of Substance | This material is thermally stable when stored and used as directed. |
| Conditions to Avoid | No information available. |
| Incompatible Materials | No information available. |
| Hazardous Decomposition Products | Thermal decomposition is highly dependant on conditions. A complex mixture of airborne solids, liquids and gases, including carbon monoxide, carbon dioxide and other organic compounds will be evolved when this material undergoes combustion or thermal or oxidative degradation. |
| Hazardous Reactions | No information available. |

11 TOXICOLOGICAL INFORMATION

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Acute Effects

| | |
|--------------------------|---------------------------------------------------------------------------------------------------|
| Inhalation | Product may be an irritant to mucous membranes and respiratory tract. |
| Skin Contact | Contact with skin may result in irritation. Repeated or prolonged contact may lead to irritation. |
| Eye Contact | May be an eye irritant. |
| Ingestion | Swallowing can result in nausea and vomiting. |
| Long Term Effects | No information available. |

12 ECOLOGICAL INFORMATION

Avoid contaminating waterways.

| | |
|--------------------------------------|-----------------------------------------------|
| Ecotoxicity | Not classified as Ecotoxic under HSNO. |
| Persistence and degradability | The product is expected to biodegrade slowly. |
| Mobility | Highly soluble in water. |

13 DISPOSAL CONSIDERATIONS

| | |
|---------------------------|----------------------------------------------------------------------------------------------|
| Substance Disposal | Dispose of in an authorised landfill. Do not dispose of down drains or into local waterways. |
| Container Disposal | Recycle or reuse if possible, or dispose of in an authorised landfill. |
| Local Legislation | Disposal should be in accordance with applicable regional and national laws and regulations. |

14 TRANSPORT INFORMATION**Land Transport**

Not classified as Dangerous Goods by the criteria of NZS 5433:1999 Transport of Dangerous Goods on Land for transport by road or rail.

Marine Transport

Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

Air Transport

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

15 REGULATORY INFORMATION

The regulatory information is not intended to be comprehensive. Other regulations may apply to this material.

Environmental Risk Management Authority (ERMA) Group Standard Number:

Not applicable.

Hazardous Substances and New Organisms Act (HSNO):

Approved Handler not required.

16 OTHER INFORMATION**SDS Revisions**

Safety Data Sheets are updated at least every 5 years. Obtain the latest version by visiting www.bostik.co.nz.

A vertical bar in the margin indicates an amendment from the previous version.

Reason for Issue First issue

SDS Distribution The information in this document should be made available to all who may handle this product.

This SDS summarises at the date of issue our best knowledge of the health and safety hazard information of this product, and in particular how to safely handle and use the product in the workplace. Since Bostik New Zealand Limited cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this SDS in the context of how the user intends to handle and use the product in the workplace.

If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact Bostik New Zealand Limited.

Our responsibility for product as sold is subject to our standard terms and conditions, a copy of which is sent to our customers and is available upon request.

Key / Legend

| | |
|-----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| SDS | Safety Data Sheet |
| HSNO | Hazardous Substances and New Organisms Act 1996 |
| WES-TWA | The time-weighted average exposure standard designed to protect the worker from the effects of long-term exposure. |
| WES-STEL | The 15 minute average exposure standard. This applies to any 15 minute period in a working day and is designed to protect the worker against adverse effects of irritation, chronic or irreversible tissue change, or narcosis that may increase the likelihood of accidents. The WES-STEL is not an alternative to WES-TWA; both the short-term and time-weighted average exposures apply. |

Disclaimer This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
