NO. 1 IN THE WORLD, IN TOILET
TANK REPLACEMENT VALVES.

**Fluidmaster**
The Most Popular Name in Toilet Care

Side Entry - Inlet

Features

- **Simple to install** without special tools
- Fits most side inlet toilet cisterns (6-13 litre)
- New design provides a **40% quieter fill**
- Unique quick release coupling nut, for **easy access & maintenance**
- Works well with **high or low water pressure**, fast refill
- Easy-to-access screen filter ensures years of **troublefree operation**
- Water level adjustment for most **efficient flush volume**
- **Anti-siphon/backflow design** prevents contamination of fresh water supply
- **Corrosion resistant** plastic and stainless steel components
- Narrow profile allows a **proper fit** in slimline WC cisterns
- Absence of lever arm prevents storage tank wall distortion - making **support structures unnecessary**

Top Entry - Inlet Valve

Code	Shank Type	Shank Size
747UK	Plastic	1/2"
747UKL	DZR Brass	1/2"
747EL	DZR Brass	3/8"

NO. 1 IN THE WORLD, IN TOILET
TANK REPLACEMENT VALVES.

Fluidmaster
The Most Popular Name in Toilet Care

Bottom Entry - Inlet Valve - (400UKL Shown)

Features

- **Simple to install** without special tools
- **Compact**, efficient design fits today's 6-13 litre cisterns
- Works well with **high or low water pressure** - no need to change seals
- **Fast refill**, with an absolute shut-off after every flush
- **Lasts longer** by working with water pressure, not against it
- Seals are **easy to access**; simple to change or replace
- **Durable** materials stand up to millions of flushes
- Narrow profile allows a **proper fit** in slimline WC cisterns
- Water supply enters cistern from below water level - **eliminating noise** of cascading water

Anti-siphon/backflow design prevents contamination of fresh water supply

Easily adjustable height from 230mm to 355mm provides a universal fit.

Water level adjusts easily for best flush

Bottom Entry - Inlet Valve

Code	Shank Type	Shank Size
400UK	Plastic	1/2"
400UKL	DZR Brass	1/2"
400EP	Plastic	3/8"
400EL	DZR Brass	3/8"

DZR Brass shank prevents cross-threading and stripping (400UKL & 400 EL models)
