

How much does the iHeat central heating system cost to run?

*Monthly iHeat Running Cost**

(Excluding NG fixed line charge, and based on the standard operation for 8hrs a day. In more extreme climates seek specific advice regarding running costs eg: Queenstown.)

Gas Type	INFINITY® Type	Heating Zone		
		Warm	Medium	Cool
Natural Gas	INFINITY® EF	\$60 - \$100	\$75 - \$130	\$85 - \$160
	INFINITY® VT	\$70 - \$120	\$85 - \$150	\$100 - \$180
LPG	INFINITY® EF	\$140 - \$250	\$170 - \$290	\$200 - \$450
	INFINITY® VT	\$160 - \$270	\$200 - \$320	\$230 - \$500

* iHeat running costs are an estimate and to be used as a guide only. The cost may vary due to multiple factors including type of building materials, insulation, the amount and type of glazing and location of the house. iHeat Running costs are based on the standard operation (heating whole living area, 185m²) for 8hrs a day (2hrs morning, 6hrs night) heating up to a comfort zone temperature (close to 21°C). NG is based on Genesis Energy Auckland Lifestyle plan as at 11/3/13 (6.63c/kWh) incl GST, 10% prompt payment discount, excl NG fixed line charge. LPG is based on Genesis Energy Auckland Standard Charges (\$96.53 / 45kg Bottle refill and standard delivery), incl GST, excl LPG annual bottle rental and excl electricity running costs.
